K. GRANDFATHERED SERVICES

"Grandfathering" of Existing Service Offerings No Longer Offered for New Installations

1. General

There are certain service offerings which have been discontinued to new customers but continue for specific customers who are subscribing to them at the time of their discontinuance. These exceptions to regular Tariff provisions are referred to as the "grandfathering" of the customers involved. The service offerings continued on this basis are identified in the following tariffs and are subject to the conditions specified in paragraph B below.

2. Service Offering and Rate Treatments

Grandfathered service offerings are continued only for existing customers at existing locations. The rates for grandfathered services are subject to change in the same manner and to the same extent as regular service offerings. No new or additional "grandfathered" services will be furnished. Where a new customer takes over existing telephone service, with or without a change in directory listing, where the customer initiates a change in class of service or where there is a break in the continuity, the "grandfathered" service is no longer available. The renting or leasing of the premises on which the service is provided to someone other than the existing customer voids the furnishing of the grandfathered service, whether or not the telephone service remains in the name of the original customer.

The extension of such allowances for interruption shall be the sole remedy of the Customer and the sole liability of the Company. The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary or punitive damages to Customer as a result of any Company service, equipment or facilities, or the acts or omissions or negligence of the Company's employees or agents.

- a. DID is furnished upon condition that the customer contract for adequate facilities to permit the use of the service without injurious effect upon the general telephone service. Adequate facilities include but are not limited to the following:

(1) DID Trunk – If the grade of service at the group busy hour of the DID trunk group is less than P.05 for two consecutive months, and in the opinion of the Telephone Company, additional trunk lines are needed, the customer may be required to subscribe to additional trunk line facilities or terminate the existing service, at the Company's sole discretion.

- b. The Telephone Company may refuse to furnish or to continue to furnish service for failure to comply with 3.8(A)(8)(a) above and as covered in Cancellation of Service in section 2.9.

3.9 Direct Inward/Outward Dialing Service (DIOD)

A. General

1. Direct Inward/Outward Dialing (DIOD) Service is a central office based service that permits incoming calls to reach customer provided equipment, without the assistance of an attendant, and allows the trunk to be used to place outgoing calls.
2. The assignment of telephone numbers and the sequence of numbers to a customer are made at the discretion of the Company. All terms and conditions pertaining to DID Service are applicable to the DIOD Service.
3. This service is subject to the availability of existing equipment and facilities.
4. Trunks arranged for DIOD Service may not be combined with trunk groups arranged to provide DID Service. Overflow of calls between the two arrangements is not permitted.

SECTION 3 - SERVICE OFFERINGS, CONT'D.

3.9 Direct Inward/Outward Dialing Service (DIOD), Cont'd.

A. General, cont'd.

5. Where the DIOD Service is provided from a different exchange area, the Special Transport and Special Access Line Charges apply for the interexchange channel as specified in the Company's applicable access tariff.
6. Customers are required to subscribe/use current trunks as the basic access piece of the DIOD trunks using the existing tariff rate. The DIOD Service rate is in addition to the existing business trunk rate(s).
7. The customer is responsible for providing intercept on assigned unused telephone numbers associated with DIOD Service. Busy tone is not acceptable. If attendant answering is used, answer supervision must be provided.

3.10 IntraLATA Presubscription

A. General

IntraLATA presubscription is a procedure whereby a subscriber designates to the Company the carrier that the subscriber wishes to be the carrier of choice for intraLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. IntraLATA presubscription does not prevent a subscriber who has presubscribed to an intraLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative intraLATA toll carrier on a per-call basis.

- B. A subscriber's initial inter and intraLATA toll presubscriptions will default to the Company, unless the subscriber selects a different toll service provider. There will be no charge for a subscriber's initial intraLATA or interLATA toll presubscription selections. Charging a selection to another intra or interLATA toll provider will result in a secondary change of service fee.

SECTION 3 - SERVICE OFFERINGS, CONT'D.

3.10 IntraLATA Presubscription, Cont'd.

B. Options, cont'd.

Option C: Subscriber may select a carrier other than the Company or the subscriber's interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option D: Subscriber may select no presubscribed carrier for intraLATA toll calls subject to presubscription which will require the subscriber to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

C. Regulations

New subscribers may select either Options A, B, C, or D for intraLATA presubscription. Subscribers may change their selected option and/or their presubscribed intraLATA toll carrier at any time subject to charges specified in Section 4F.13(B) or Section 4R.13(B).

2. Lifeline is available only with residence services, excluding foreign exchange service. Lifeline is limited to a single subscription per household where household is defined to be any individual or group of individuals who are living together at the same address as one economic unit. For the purposes of this rule, an economic unit consists of all adult individuals contributing to and sharing in the income and expenses of a household.
